

BONDING JUMPERS AK SOLAR

AK Stamping Company is a leading provider of cost-effective and functional solutions for integrated PV module bonding and grounding hardware. Our world-class production technologies offer simplified installation and high reliability, to reduce solar installation balance of system costs.

BENEFITS AND FEATURES:

- Comprised of 6AWG copper wire and two tinned copper terminals
- Establishes electrical bond between rails
- Custom end terminals available for a range of bolt diameters
- Solid, stranded or highly flexible wire available from 2-40 inches with or without tin plating
- Compatible with virtually all solar arrays
- Made with pride in the USA

AKS Is Your SINGLE SOURCE FOR SOLAR ENERGY COMPONENTS:

- Bonding jumpers are listed to UL Standard 467
- Over 40 years manufacturing grounding hardware and cable management solutions
- In-house design, engineering, and manufacturing to reduce costs and response times
- An international distribution network in North America, South America, Europe and Asia
