

GROUNDING SPACERS AK SOLAR

AK Stamping Company is a leading provider of cost-effective and functional solutions for integrated PV module bonding and grounding hardware. Our world-class production technologies offer simplified installation and high reliability, to reduce solar installation balance of system costs.

BENEFITS AND FEATURES:

- Creates bond between PV module and racking system for path to electrical ground
- Universal design for quick installation on bottom- and top-clamp racking systems
- Durable stainless steel
- Variety of sizes up to 1.25" O.D. compatible with a wide array of racking configurations
- Custom versions available
- Extrusions are engineered for maximum strength and bite into galvanized steel and anodized aluminum
- Made with pride in the USA

AKS IS YOUR SINGLE SOURCE FOR SOLAR ENERGY COMPONENTS:

- Grounding Spacers are recognized to UL Standard 2703 and ETL listed to UL Standard 467
- Over 40 years manufacturing grounding hardware and cable management solutions
- In-house design, engineering, and manufacturing to reduce costs and response times
- An international distribution network in North America, South America, Europe and Asia
